

Combat Log — The Wurmwood

22 September 2026 · 3 combats · folded from 166 Battle Flow stamped messages of 485

Three fights in Bramblemau's Lair: a two-round Shambling Mound, a two-round druid and giant crocodile, and a four-round adult green dragon. The party dealt 584 and took 269. Jetten and Invictus each hit o twice; nobody died. All three squirrel allies died to the dragon's first breath.

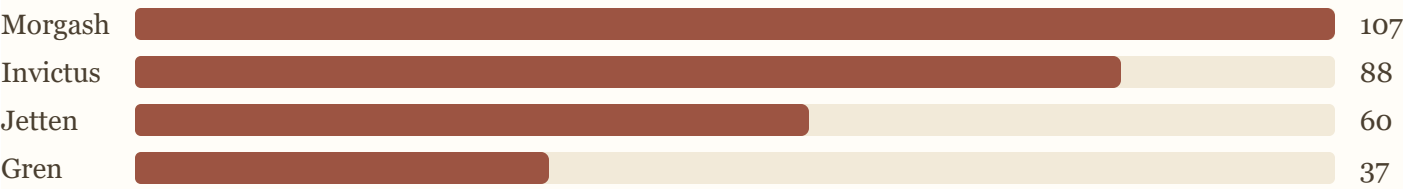

Bramblemau died with 3 hit points to spare — 292 damage into a 289 HP dragon. He had about 12 left when Gren's Fireball went off, and its *saved* half (15) was enough. Take away any one of the three biggest contributors below and the dragon lives: Topple's advantage (65), Morgash's second Action Surge (29), or the wand's Magic Missile (22).

WHAT	DAMAGE SUPPLIED	BRAMBLEMAU WITHOUT IT
Topple → advantage on Morgash's follow-ups (5 misses converted)	65	alive on ~62
Morgash's second Action Surge (round 4: 15 + 14)	29	alive on ~26 — see ruling note
Gren's Magic Missile (wand, five darts)	22	alive on ~19

Ruling note. Morgash surged in round 3 (on the sheet) and again in round 4 on the call "*you have two Action Surges*". At Fighter 6 it is one per rest; two arrives at level 17. Not a retcon — it is in the mechanics notes so the ruling stays consistent.

1 • **Headline numbers**

Damage dealt to Bramblemaw, by character

Gren's Fireball also put 30 into a giant crocodile in the water. Round by round the dragon took 62 • 51 • 76 • 103.

CHARACTER	DEALT	TAKEN	HEALING DONE (INCL. SELF)	NAT 20S	NAT 1S
Morgash the Gravemaker	175	36	38	0	0
Invictus	161	111	35	1	1
Jetten Elisedil	158	89	15	1	2
Gren Greenmantle	90	33	31	1	0

Opposition

FOE	DEALT	ACCURACY	TAKEN	FATE
Bramblemaw	314 (78.5/rd)	5/9	292	killed — Gren's Fireball
Giant Crocodile	38	2/2	87	killed — Invictus's <i>Death Armor</i>
Shambling Mound	13	1/3	111	killed — Jetten's shortsword
Geas Druid	0	—	64	down — Jetten's longbow
Pinenut • Honeysuckle • Pudgy	—	—	32 each	killed — the first breath
Giant Crocodile (lake)	—	—	30	swam off

Of Bramblemaw's 314: **218 into the party, 96 into the squirrels.** Poison 218, slashing 54, psychic 42.

2 • The Shambling Mound — 2 rounds

Morgash's maul **toppled it twice** (14, then 5 vs DC 15), a whiffed tendril became a **Riposte for 21**, and its one hit (16) was cut to 13 by Heavy Armor Master. **Jetten's shortsword killed it** — an advantaged roll off the prone that would have missed on the low die (12 vs AC 15).

COMBATANT	DEALT	PER ROUND	ACCURACY	TAKEN
Morgash	47	23.5	3/3 • 100%	13
Jetten	34	17.0	3/3 • 100%	0
Invictus	30	15.0	2/2 • 100%	0
Shambling Mound	13	6.5	1/3 • 33%	111

3 • The druid and the crocodile — 2 rounds

151 dealt, 38 taken — all of it by Invictus, in the crocodile's jaws. **Jetten took the druid alone**: 8, 10, a **natural-20 crit for 33** (13 piercing + 20 psychic *Dreadful Strike*) that the druid held concentration through (18 vs 16), and 13 to drop him. **The crocodile bit Invictus twice (24, 14) and died of it** — *Death Armor* struck back for 5, then 6, and the 6 was the kill. Gren's Fire Bolt rolled a natural 20 on *disadvantage* — both dice — for 23.

COMBATANT	DEALT	PER ROUND	ACCURACY	TAKEN
Jetten	64	32.0	4/4 • 100%	0
Invictus	43	21.5	2/2 • 100% (+2 <i>Death Armor</i>)	38
Gren	23	11.5	1/2 • 50%	0
Morgash	21	10.5	2/2 • 100%	0 (3 from <i>Spike Growth</i>)
Giant Crocodile	38	19.0	2/2 • 100%	87
Geas Druid	0	—	—	64

4 · Bramblemaw — 4 rounds

What the dragon did. Two breaths (32, 30) — the first killed all three squirrels and put Jetten to 14; three *Mind Spikes* (19, 15, 8), two of which dropped a PC; five *Pounces*; three *Noxious Miasmas*; and two Legendary Resistances, spent on Invictus's shield bash and Gren's *Slow*. His Rends found Invictus's AC 22 twice in six tries.

Downs: Jetten (round 1 — *Mind Spike* after an unresisted breath) · Invictus (round 3 — *Mind Spike*; one failed death save, 8 with advantage) · Jetten and Invictus together (round 4 — the second breath). **Raised** by Gren's *Healing Word* twice, Selma's Superior Healing (27, Morgash → Invictus), and 2 points of Lay on Hands (Invictus → Jetten).

COMBATANT	DEALT	PER ROUND	ACCURACY	TAKEN
Morgash	107	26.8	9/13 · 69%	23
Invictus	88	22.0	6/7 · 86%	73
Gren	67 (37 to the dragon)	16.8	auto (Magic Missile, Fireball)	33
Jetten	60	15.0	5/10 · 50%	89
Bramblemaw	314	78.5	5/9 · 56%	292

A deadly fight, run straight, won by 3 HP — and the dice were unkind to two of the four.

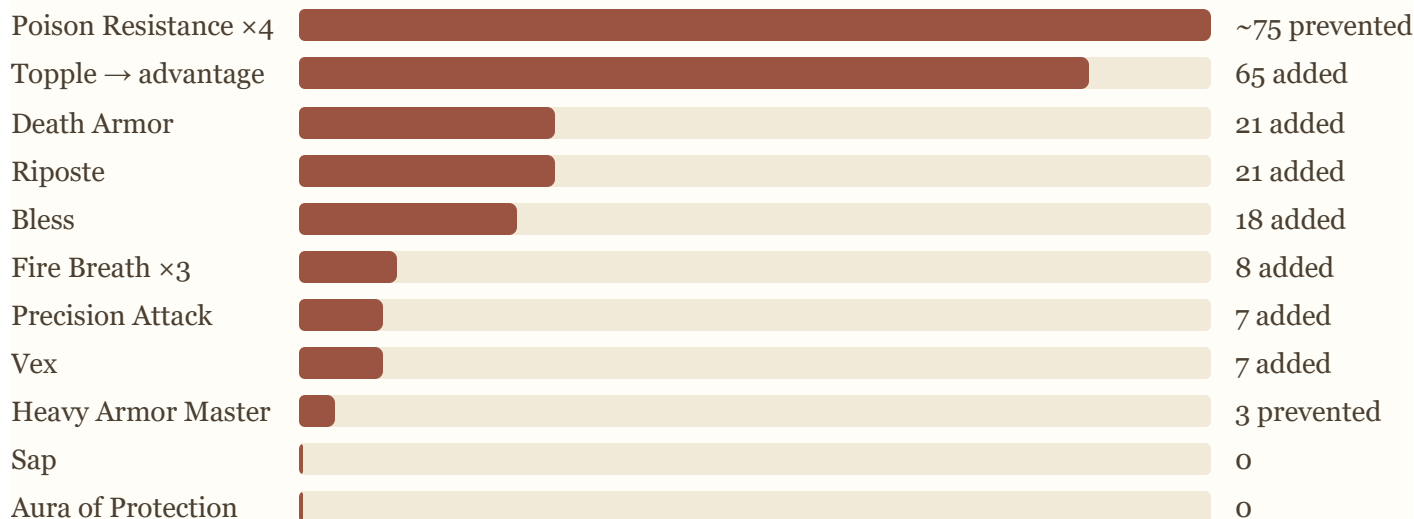

Invictus failed every save he rolled against the dragon: four Con saves at +4 vs DC 16 (55% to fail each) and one Wis at +6 (45%) — about **4%, 1 in 24**, one of them a natural 1. Jetten failed all three *Mind Spike* saves *with advantage* (36% to fail each) — about **5%, 1 in 21**.

The other way: the breath recharged at the top of round 3 but went unchecked until after the dragon's action, so the second breath came a round late; and two of his three Legendary Resistances went on a shield bash and *Slow* rather than on the two topples that actually killed him. An adult green dragon into four level-6 PCs is meant to be deadly, and it played that way. Not a balance problem.

5 • What the buffs and features actually bought

Every spell, mastery and maneuver that touched a number tonight, and what it produced, ranked by how much it moved the fights.

Damage added or prevented, by effect

Poison Resistance by PC: Invictus ~37, Jetten 16, Gren 14, Morgash 8. Topple: 5 advantaged maul swings on the dragon that would have missed on the low die.

The winners

- **Topple, 4 for 4.** Two prone on the Mound, two on the dragon, none resisted. On Bramblemaw the advantage converted five misses (totals on the low die: 18, 16, 13, 12, 10 vs AC 19) into 65 damage — the single biggest thing any feature did tonight.
- **Potions of Poison Resistance, 800 gp for ~75 HP.** The best money the party has spent. The lesson in it: **Jetten drank Antitoxin, not resistance, before the doors.** The first breath took him 46 → 14 and the *Mind Spike* finished him. With the potion down first he takes 16, sits on ~28 after the Miasma, and survives the spike on ~9.
- **Death Armor killed a giant crocodile by itself** (the 6 on its second bite) and put 10 more into the dragon. Its death-save advantage didn't save the one roll it got (8).
- **Selma's Superior Healing** — the price of a finger — took Invictus from 0 to 27 in round 4, and his first act back up was 2 points of Lay on Hands that stood Jetten up. Jetten then saved the next Miasma on a 20 and hit for 15.
- **Bless, one flip:** Jetten 18 → 19 against AC 19, 18 damage.

The duds, named as plainly

- **Sap: nine applications, no outcome changed.** Both dragon Rends it put at disadvantage (13, 12) would have missed AC 22 on the higher die anyway (16, 14).
- **Aura of Protection (new at 6): no save flipped.** Morgash passed with room to spare; Invictus's closest miss was 15 vs 16 with the +2 already in; Jetten missed three of his four aura saves by 3 or more.
- **Antitoxin ×3: nothing.** Nothing in the lair imposed Poisoned — the Miasma takes AC.
- **Counterspell:** the dragon saved, 22 vs DC 18. **Heroic Inspiration:** Morgash's reroll went 17 → 15, still a miss.
- **Potions of Fire Breath, 600 gp for 8 damage.** Invictus exhaled once (17, saved to 8). Morgash drank his and never exhaled; Jetten never drank his.
- **Innate Sorcery:** +1 DC on a *Slow* the dragon failed by 6; no spell attacks in its minute. **Death Ward** never triggered; Gren bottomed out at 8.

Maneuvers and masteries

EFFECT	USES	WHAT IT PRODUCED
Topple (maul)	4	4 prone, 0 resisted — 65 converted on the dragon
Sap (Midnight)	9	disadvantage on 2 Rends that missed anyway
Shield Master — bash	7 offers	crocodile prone, dragon prone (round 1), 1 Legendary Resistance burned
Slow (Careful)	1	1 Legendary Resistance burned; no other effect
Dreadful Strike	3	36 psychic (20 on the druid crit, 16 on the dragon)
Action Surge	2	4 extra maul swings on the dragon, 54 damage (see ruling note)
Riposte	1	21 on the Mound
Precision Attack	1	1 miss → hit (16 + 8 = 24 vs 19), 7
Vex (shortsword)	1	1 Goldthorn miss → hit, 7
Magic Missile (wand, 3 charges)	1	22 force

6 • Combat flow — decision speed

CHARACTER	AVG DECISION	TIMED MOMENTS	SLOWEST CALL
Jetten Elisedil	3.1s	8	6.2s — mastery
Invictus	8.6s	10	24.0s — bash offer (timed out)
Morgash the Gravemaker	15.2s	13	24.0s — d20 fold (timed out, twice)
Gren Greenmantle	17.7s	1	17.7s — concentration

Jetten is faster again (4.6s → 3.1s). Invictus nearly halved his average (14.1s → 8.6s). Morgash is slower (12.5s → 15.2s), mostly on Heroic Inspiration and Precision prompts that ran the timer out.

7 • Economy and flavour

Resources spent

- **Gren** — 1st ×2 (Bless, Healing Word), 3rd ×2 (Slow, Fireball), Counterspell off the Vesper Staff (3 charges, 7/10 left), 2 sorcery points (Careful Spell ×2), Wand of Magic Missiles 3 charges (4/7 left), Innate Sorcery, Death Ward; Pearl of Power after the fight.
- **Invictus** — one 2nd-level slot (Misty Step) and Death Armor. **Four 1st-level slots and a 2nd were still unspent at the end: no Divine Smite and no Vow of Enmity against the dragon.** Lay on Hands 19 of 30 across the night.
- **Morgash** — Riposte, Precision Attack, Action Surge, Adrenaline Rush, Second Wind, Heroic Inspiration, and Selma's Superior Healing (into Invictus).
- **Jetten** — Dreadful Strike ×3, two Potions of Healing, Healing Word (Magic Initiate).

The night's dice

- **Buff-die flips:** 1 — Jetten vs Bramblemaw, 18 + 1 = 19 vs AC 19.
- **Natural 20s:** Jetten (the druid crit), Gren (Fire Bolt — on disadvantage), Invictus (javelin), Bramblemaw (the crit Rend on Gren).
- **Natural 1s:** Jetten ×2, Invictus (a save vs the second breath), Bramblemaw (a breath recharge), the Giant Crocodile (its save vs the shield bash).
- **Advantage rolled:** Morgash ×9, Jetten ×7, Invictus ×2, Gren ×2 — disadvantage: Shambling Mound ×2, Bramblemaw ×2, Invictus, Gren.
- **Death saves:** Invictus 0 made / 1 failed.

Generated from the Battle Flow ledger via `get-combat-stats` — read-only scan, reverted applications subtracted, poison-resistance halves rounded down. Monster token identifiers resolved to names by hand; counterfactuals worked from the individual dice in the chat log.
